Sci 8T – Health assignment

In this assignment, you will learn about an illness caused by a bacterium or a virus

1. Choose a topic.

2. Start your research through www.libguides.sd44.ca/sutherland

   Follow links to World Book Online and kidshealth.org (kids or teens page) to answer the questions. You can also use other websites, but make sure they’re trusted medical sites.

   Copy & paste the URL for each website you use, for a bibliography.

3. Put your notes into a slide show. Build it using Google Slides.
   Find at least one related picture to add to each slide.

   THIS PROJECT IS DUE OCTOBER 12th
   WORK PERIODS OCT 6 & 7

Level 2 work – Brief, facts only.
Level 3 work – Explains the disease and the body systems, and how they interact
Level 4 work – Connect this illness to people. How does it affect their lives?

WHAT SHOULD YOU LEARN ABOUT YOUR TOPIC?
(Use the note-taking form as a guide...)

1. What is the disease?
2. What does it do to your body?
3. What are the signs and symptoms?
4. How is it prevented?
5. How is it treated or cured?
6. How does this disease affect people, families, communities, the world?
TO CREATE A GOOGLE ACCOUNT:
Go to www.google.ca/drive
Follow the steps to create an account. Write down your user name & password.

In Drive, create a NEW FOLDER.
Name it: YOUR name Sci 8  ex: Jackson Sci8
Right click on the folder, and share it with: 13844@sd44.ca  (editing access).

I will put a note-taking file in your folder. Use this to build your presentation.
