COMPARATIVE CIVILIZATIONS PROJECT

In a group of 4, research your assigned civilization and present your findings about its features to the class in a professional digital presentation (PowerPoint, Google Slides, Etc.)

Civilizations
- China (pg. 6-36)
- India (pg. 110-133)
- Africa (pg. 240-263)

INFORMATION

1. Geography
   a. Describe the main physical features of the land and the climate
   b. Explain how these physical features and this climate affected the civilization

2. Arts and Culture & Religion
   a. Describe at least two pieces of art and/or cultural practices and explain what they tell us about the civilization
   b. Identify the main religions practiced and briefly state 1-2 facts about them

3. Technology & Knowledge Transfer
   a. Identify a minimum of one example of technology used or developed by the civilization and why it was important
   b. Explain how people in the civilization mainly shared information

4. Government & Social Structure and/or Commerce & Public Works
   a. Describe a form of government present in the civilization and/or briefly explain the social structure(s)
   b. Describe the economy (jobs, money) and/or Identify at least one example of a public work and how it helped the civilization

PRESENTATION

- You must address each part of the above information in at least 1 slide of your presentation.
- Use point-form to write information on slides (AVOID LARGE PARAGRAPHS)
- Each slide should include a picture
- Proofread for spelling & grammar errors
- Include a bibliography at the end citing the sources of your information (textbook, World Book, images, etc.)
- Each group member must equally share the presenting of the project
  *BONUS MARKS for including additional fun facts and presenting with enthusiasm!
